Perfion Database 5.0.1 Changes

Changes from Database installer v5.0.0 to v5.0.1

Bugs:

Issue ID	Title	Description
DEV-5819	Modified Date incorrect on updated via Item Triggers	In some cases, the Modified Date on items was incorrect on updated triggered via Item Triggers.

Perfion Database 5.0.0 Changes

Changes from Database installer v4.10.4 to v5.0.0

Bugs:

Issue ID	Title	Description
DEV-5693	Item Trigger Condition "If no value in specific feature"	A bug in the Item Trigger Condition "If no value in specific feature" is fixed. The Condition was not working for localizable features.
DEV-5662	Add missing translations for data types and common types	Missing translations added for languages 'DAN', 'DE', 'EN', 'FR' and 'NLD' for data types (TypeID < 100) and for TypeID's 100(Product), 101(Item Name), 102(Category), 206(Product View), 207(Product Filter). Translations are stored in the database for types and the fix requires a database update.
DEV-5229	Sections administration from web	New column "VisibleInWeb" added to the Sections table.
